Make Ukraine safer from drugs,
organized crime and corruption

OUR MISSION

UNODC has been operating in Ukraine since 2007 with the vision of helping the country become safer from drugs, organized crime, corruption and terrorism, in line with UNODC's mandate. The UNODC Office in Ukraine focuses on five normative and programmatic areas in support of national priorities, international commitments and alignment with the Sustainable Development Goals.

AREAS OF ACTIVITY

[Anti-corruption](#)

[Border management & Trade facilitation](#)

[Combatting organized crime & Anti-money laundering](#)

[Crime prevention & Criminal justice](#)

[Addressing the drug problem](#)

FACTSHEET

Who We Are
The United Nations Office on Drugs and Crime (UNODC) Programme Office for Ukraine supports the Government's reform efforts and work to mitigate the risks associated with drugs, corruption, and organized crime to contribute to Ukraine's sustainable development, recovery and rule of law, in line with UNODC's mandate and international standards. Within the UN Transitional Framework in Ukraine - and the Ukrainian Government's priorities and reform agenda, UNODC identifies priority actions for delivery in Ukraine.

Our Services

Strengthen anti-corruption responses

- Support to anti-corruption institutions
- Mainstream anti-corruption, including through preventive measures at national and local levels

Border management & trade facilitation

- Strengthen border management agencies
- Ongoing risk analysis & response
- Interagency coordination & data sharing
- Prevent and counter specific trafficking
- Institutional resilience, crisis response & counter-corruption capacity

Combatting organized crime & anti-money laundering

- Trafficking in persons
- Money Laundering
- Cybercrime
- Firearms

Crime prevention & criminal justice

- Prisons
- Access to Justice and legal aid with a focus on women & vulnerable children

Addressing the drug problem

- Early warning on emerging drug threats
- Counter-narcotic capacity to disrupt drug trafficking
- Health - Drug use prevention, dependence treatment & HIV prevention

Cross-cutting principles:
Coordinated approach in line with the national agenda
Evidence driven design
Human rights based and gender responsive
Community focus and engagement with civil society
Focus on vulnerable communities, women and youth
Innovation and technology for a sustainable approach

How We Work

Legal & policy environment
Ensure alignment of norms & practices with international standards.

Stronger & evidence-based responses
Evidence-based responses based on data, assessments & analysis.

Improved governance & justice responses
Strengthen rule of law, transparency & good governance.

Complementarity & partnerships
Support partnership-based approaches that increase the impact & sustainability of development outcomes.

Integrated & resilient communities
Strengthen community resilience & address vulnerabilities (participation in criminal activities, victimization & risk behaviours).
